EDUCATION

2019-2024

HO CHI MINH CITY UNIVERSITY OF
TECHNOLOGY AND EDUCATION

Major: Software Engineering

GPA: 3.05/4

WORK EXPERIENCE

4/2022 - 7/2022 FPT Software

Intern Front-end Developer

Designing interfaces using Figma, build the interface and connect API for E-commerce website.

ABOUT ME

I'm a self-taught Front-End Web Developer seeking an entry-level position. I am aiming to become a Full-Stack developer. I hope to share my skills, expertise, and experience with your organization and clients.

SKILLS

- **Coding:** HTML, CSS (Tailwind, SCSS, Bootstrap), Javascript (ReacJS, React Hook, Redux,...), Typescript, NodeJS
- **Tool:** GitHub, GitLab, Figma
- **English:** Basic communication skills with the ability to comprehend programming-related documents.

PROJECTS

4/2022 - 7/2022

CAKE-SHOP: A website used for selling cakes

- Designing interfaces for user and admin pages.
- Connect to backend API for various functions including searching, ordering, payments, and CRUD operations.
- Implement interface functionalities such as form data validation, search, pagination, and project-specific business features.

Technology: ReactJS, Redux Toolkit, axios, Firebase, NodeJS, MongoDB and more libraries.

9/2023 - 12/2023

TRAVELOVER: A website used for selling tours

- Design interfaces for user, admin, and enterprise pages.
- Connect to backend API for various functions including searching, tour booking, payments, and CRUD operations for admin and business pages.
- Implement interface functionalities such as form data validation, search, pagination, chatbot integration using Dialogflow API, statistical pages with charts, and other business-related features.

Technology: ReactJS, Redux Toolkit, axios, Google Dialogflow API, and more libraries.
